

The Cle Elum Pines West Developer has partially cleared the private parcels between Denny Avenue and the County transfer station (where the power lines cross SR 903). This area is all part of a 2014 Development Agreement that is currently under construction to build single family homes just west of Denny Avenue on what will be an extension of Marian Drive. As a Planned Mixed Use property, a multi-family component will be included in a later phase.

For questions, please contact Lucy Temple at City Hall, 674-2262.
