

PUBLIC NOTICE OF CONSTRUCTION FOR THE SECOND STREET AND ROSSETTI WAY WATER MAIN IMPROVEMENT PROJECT

The Second Street and Rossetti Way Water Main Improvement Project began construction on October 23. The project will begin at Rossetti Way south of First Street and head north towards Second Street. At Second Street the project will veer east down Second Street towards Stafford Avenue and continue east along the north side of Second Street where it will end at Short Avenue. This project will replace an aging and critical water main that is vital to the city and the community. Residences along Second Street between Stafford and Short will be notified in advance through the city's text notification system, Facebook, and by door hangers when construction is to begin in front of their properties and any disruptions to water services. Access to homes and businesses by alleyway will remain open, and detours will be set up to maintain safe travel around the construction site. Construction will proceed through the winter with an expected completion time of spring 2024. Please be mindful of active construction zones and detours, and please reach out to City Hall with any questions or concerns.
